Keywords (and related sub-terms) searched:

Oncology, Solid Tumors, Hematological Malignancies, Small Molecules, Biologics

Biocontacts.

Curious who's active in your focus areas?

We'll send you a free snapshot of potential partners from the Biocontacts platform — tailored to your therapeutic focus.

→ **Request yours now.**

Who it's built for:

- Biotech founders and BD teams
- Academic TTOs looking to out-license IP
- Product owners looking for distributors in all corners of the world

What makes Biocontacts different?

- ✓ **Search by what matters** — disease area, stage, partner size and location
- ✓ **Contains the in-licensing interests** — of S, M & L biotechs and pharmas
- ✓ **Curated, verified contacts** — not scraped or outdated

Get started in minutes

1. **Search** by disease area, modality or region
2. **Unlock** contact profiles and add them to your target lists
3. **Export** your target list to Excel — and start reaching out

How many potential partners align with your innovation?

We'll show you.

Request your **free**, customized snapshot to see how many biotech and pharma companies match your therapeutic focus.
